

Gwen Stefani Baby Photos

She's a hot mama – that's what I gotta say. Just after weeks of giving birth to her second child, she's already exhibiting post-pregnancy bulge on her stomach. Her second child, Zuma Nesta, was born two weeks ago.

Also, paparazzis shot photos of her with her husband Gavin Rossdale at LA's Cedars-Sinai Hospital on Thursday – September 4, 2008.

Like any other pop-stars, I'm pretty sure that she'll have the fittest body in town in no time.

Way to go Gwen Stefani!
