Angelina Jolie Baby Pictures

Back when Angelina Jolie started her career as a ‘disturbed’ and ‘crazy’ hot chick, nobody knew that she was going to be Hollywood’s hottest mama.

Not only she has adopted so many kids from various parts of the world – she’s also the wife of Hollywood heartthrob, Brad Pitt.

She’s rich, she loves kids, she’s pretty, she’s got a body to die for – You definitely got my vote as the world’s most eligible (ex-eligible, after you married Brad :-)) women.

Here are some photos of Angelina Jolie and her kids.
